THE Turkish gendarmery in Crete has been placed under the command of officers of the European gendarmery, the powers paying the expenses and receiving therefor half of the customs

In addition to Dr. Guiteras, Doctors Murray and Carter, all yellow fever experts, have been ordered by the Marine Hospital authorities to the scene of the alleged yellow fever epidemic at Ocean Springs, Miss.

THE latest intelligence from Labrador confirms the report of the complete failure of the cod fishery this season. The catch is very small, and the low prices probably means a severe winter for the fishermen.

MRS. RICHARD MILLIKEN, widow of a wealthy sugar planter, has presented the Charity hospital at New Orleans with \$75,000 to found a children's building, which will include a kindergarten and other improvements.

FAILURES throughout the country for the week ended on the 10th, as reported by R. G. Dun & Co., were 215, against 315 for the corresponding week last year. For Canada the failures were 35, against 47 last year.

THE news of the capture, by the Cubans, of the town of Victoria Las Tunas, province of Santiago de Cuba, created great excitement in Madrid. The cabinet ministers were summoned | the 7th every hotel and business house to meet, on the 10th, to consider the in the town had been burned, the losses situation.

Owing to the high prices of grain, potatoes were the main reliance of the small farmers in Ireland; but the heavy and continuous rains have caused the old, and had been in failing health for tubers to rot in the ground, and the outlook is quite serious, worse, even, than in 1890.

THE republican organization of the city of New York, better known as the Brookfield faction, of which Gen. Wagner Swayne is president, at a meeting held on the 7th, adopted a resolution 6th. Before his demise he stated that indorsing Seth Low, the citizens' union he had been guilty of killing a Miss candidate for mayor.

A DISPATCH from Cairo, Egypt, says: ance firm. Investigation proved both "The dervishes have evacuated Berber statements to be false, and it is beand have retired to Matommeh. Maj. Gen. Hunter, with four gunboats, has gone to Berber. Gen. Herbert Kichener the British commander-in-chief, will follow immediately."

Hos cholera has appeared in Wabash county, Ind., somewhat earlier than usual and in a malignant form. Several herds of animals in the southern part of the county are suffering from the disease, and effective measures to prevent a spread have been taken.

In response to the request of the government of the United States, Scotland Yard authorities have been directed by her majesty's government to furnish information to the United States authorities when anarchists are known to be embarking for the United States.

THE Colorado State Historical society will soon come into possession of the effects of Francis Schlatter, the "healer," supposed to have died in Mexico. The saddle, bridle and other effects o Schlatter are now in the possession of the district judge at Casa Grande,

CONSUL-GENERAL FITZHUGH LEE, accompanied by his son, arrived in New York from Havana on the 8th. The general said he had been suffering from biliousness for some time past, but he felt very much better after the trip. He declined to discuss official

SECRETARY WILSON of the agricultural department says that arrangements will be made by the department for the thorough introduction of the camphor tree in Florida. He has no doubt that the tree will be a success there, as it has already passed the experimental stage.

THE crisis in the grain trade in southern Russia has been enhanced by the influx of a half score of Hungarian commissioners, who are purchasing wheat at any price at which they can obtain it. A majority of the great grain exporters are in a very precari-

THE London Times' correspondent in Buenos Ayres, on the 8th, said: "The Uruguayan rebels are within a two days' march of Montevideo. If Hose believed Hinshaw guilty and Mrs. they make a determined attack, the capture of the capital will be possible, as the garrison comprises only 2,000 men, and there is no system of de-

FRANZ PULASKI, the archeologist and publicist, died in Buda-Pesth on the 9th. He was born in 1814, came of an old family of Polish immigrants, accompanied Kossuth to America and fought with Garibaldi in Italy. In collaboration with his wife he wrote a book on his American experiences entitled "White, Red, Black."

Admision day was generally observed in San Francisco, on the 9th, most of the down on the manifest as lard. The leading stores being closed and all municipal and public offices saspending business. The city proper was almost deserted as thousands took advantage of the perfect weather to attend the various attractions in the suburbs upon both sides of the bay.

In official circles in Simla it is believed the bottom is dropping out of the rising of the tribesmen against the British. The general officers commanding report that the Afridis have dispersed, the news that the Zakkakhels are removing their families from the Khyber district to Tirah is confirmed, and there is no longer any doubt that the enemy is leaving the Samarana territory.

AT Hazelton, Pa., on the 10th, a who rocked the yacht till it capsized. party of marching miners refused, at The drowned men were in the cockpit says: "The body of Robert Ostrander, the command of the authorities, to when the craft went over. disperse, and one of them struck Hox. Wm. J. BRYAN was a passenger train which collided with the Rio Sheriff Martin in the face. The order on one of the trains wrecked in Kansas Grande passenger, was found in the to fire was given, and so dreadful was on the night of the 8th, and was fore- debris of the wreck. December 19-Columbia, \$2,400. December 20-Fulton, \$1,800; Fayette, \$1,700, Brookfield, \$1,800; Chillicothe,

Mr. Farris and Good Roads.

In the September number of the State's Duty, Hon. J. W. Farris, of Lebanon, speaker of the house of the Thirty-ninth general assembly, makes a plea for good roads. It is Mr. Farris' opinion that convict-labor should be employed on the public roads of Missouri. He states that for a number of years he has entertained the idea. The constitutional limitation on taxation stands in the way of increased appropriation for road improvement, and it is this stubborn fact that led Mr. Farris to a consideration of the practicability of utilizing convict labor. "I endeavored to draw a bill for the consideration of the last general assembly on the suject," he says. "But there seemed to be a good many the counties might exceed the benefit derived, so I at that time abandoned the idea. I am yet of the opinion that with proper thought and wise legislation the idle convict in the penitentiary may be used to a good purpose in making good roads, and in that way their labor would not come in competition with the honest laborers of the state, who form the bulwark of our free institutions."

Missouri Corn. According to the state weather-crop bulletin issued for the week ended September 7, in the southern half of the state the corn crop is beyond help by rain and cutting is general. In many places it is reported too dry to confirm the report that Calixto Garcia cut. Early corn badly damaged in and Jesus Rabi, two of the insurgent | some districts, especially in the southgenerals, captured the town of Victoria | west section, though in many counties | rollton station, H. C. Bolen; Brunswick, J. O. corn, as a rule, will be very light and much of it will make little or nothing. In the northern sections early corn has matured very well in most counties, but late corn has suffered severely from the draught, and in many places the yield will be very light.

> Couldn't Stand Exposure. T. B. Blythe committed suicide near Ashland, Boone county. He took poison and then shot himself. Blythe was 44 years old, married, with six children, and was in good circumstances financially. He left a note to his wife, stating that he had become involved in social trouble, and killed himself to

avoid exposure.

The First in Missourl. The confederate reunion to be held in Moberly September 28, 29 and 30 will be the first annual state reunion cf confederate veterans ever held in Missouri. The confederate camps from all parts of Missouri will be represented, and it is claimed that fully 10,000 delegates and visitors will be present.

Sawmill and Lumber Burned. J. E. Baugher's sawmill and a million and a half feet of pine lumber, at Sullivan, was consumed by fire. It was one of the largest mills of Washington county, and the loss will be felt by the whole county. The loss is estimated at \$25,000, with no insurance.

Want a Woman Pardoned Every Year. The Women's Christian Temperance union of Nevada, Vernon county, has prepared a petition asking Gov. Stephens to pardon a woman out of the penitentiary every New Year.

DUN'S COMMERCIAL REVIEW.

There is No Halting in the Advance Move ment-Large Numbers of Men Finding Work and Prices Generally Improving-Wheat Advancing, With a Steady For eign Demand-Exports Limited Only by the Capacity of Shipping.

New York, Sept. 11 .- R. G. Dun & Co.'s weekly review of trade says: There is no halting in the advance. Business grows better in all ways, for while its speculative end breaks conspicuous gamblers for a decline, steady increase in production, in working force and in the power of the people to purchase is the feature which overshadows all others. Reports oi New York trade unions show an increase since one year ago of 34 per cent. in the number of men at work, and s from 5,000 to 7,000 more miners will similar increase among men in like join the malcontents. position throughout the country would

The coal miners' strike has disclosed such facts and brought to light such differences that work will probably be very soon resumed by a large share of

the men. The farmers are helped by higher prices for wheat, and while western panic. receipts do not show that they have marketed a tenth of their crops, as-

surance of a handsome profit to come prepares them to buy liberaily hereafter. Because of this and the increase of hands at work, dealers throughout gregated about the doors. A number the country have started to replenish stocks, which is the great force at present operating in manufactures and man stationed near the door became trade, though distribution by retail unduly officious. Instantly an omintrade has greatly increased.

A gain of 12 per cent. in one month in the output of pig iron, from 165,378 tons August 1 to 185,507 September 1, with knowledge that half a dozen other furnaces are preparing to resume and that unsold stocks have been reduced 14,400 tons weekly in August, indicating a consumption of about 190,000 tons more, explains the moderate advance in prices of finished products.

Pig is a shade stronger at Chicago, but the proof that the advance is healthy is found in the growing demands of consumers, especially for bars, with inquiries for 300,000 tons reported at Chicago, for structural work, including 12,000 tons for Santa Fe bridges; for all sorts of car material, including 10,000 axles, and for plates, especially for shipyards on the lakes, so that most prices have advanced \$1 per ton. Copper is steady and lead a shade

stronger at 4.15 cents and the production of coke has reached 124,000 tons with 12,717 ovens in operation.

Wheat has risen five cents the past week, not in a flurry, but in answer to the daily increasing foreign demand. though reports of the crops, now almost wholly out of danger, indicate a yield never surpassed but once. Foreign accounts still strengthen the belief that the deficiency abroad will be about 100,000,000 bushels more than usual, and meanwhile reports indicate not say when the troops are likely tothat less corn than was expected will be available for export and its price has risen about five-eighths of a cent.

While wheat receipts at Chicago have been breaking records, receipts at all the western points are for the week a little below last year's, but Atlantic exports, 9,778,138 bushels, flour included, against 4,270,755 last year for two weeks, with 5,579,771 bushels corn, against 3,570,704 last year, indicate a foreign demand apparently limited at present only by ship room.

Since the small corner in August, cotton has relapsed to 71/2 cents, no rumors affecting prices much. Northern mills are consuming very largely, with a continuing demand for goods, which has advanced the prices of

With enormous speculative sales of wool, which appeared to constitute most of the market at Boston, there is also more buying there and elsewhere by the woolen mills, which are enjoying an extraordinary demand for goods at prices averaging net ten per cent. higher than was paid in the early part

of the year. The average advance for the week in sureties has been \$1.13 per share for railroads and 79 cents for trusts.

Failures for the week have been 215 in the United States, against 315 last vear.

A GRAVE SITUATION.

Trouble Likely to Occur at Hazele ton, Pa.

An Ominous Occurence at a Church-Miners Preparing to Attend Funerals of Dead Rioters-Gen. Gobin Says He Will Permit No More Marching.

HAZLETON, Pa., Sept. 12.-The situation here to-night is graver than it has been at any time since the bloody affray of Friday afternoon. There is strong reason to fear a conflict between. the strikers and the military to-morrow, and there is an indication that-

Feeling continues high against. exceed 340,000, while every week adds Sheriff Martin and his deputies, and many establishments to the active list. the intensity of the situation is such that a sudden turn of the head or aword spoken above the ordinary tonebrings a running crowd. The soldiers. are watchful and ready for any emergency, and the people of the town are in a state which may easily become

An incident of ugly omen occurred during the funeral of three victims this afternoon. While services were being held inside St. Joseph's church about 2,000 of the foreigners were conof them raised their voices, and it is declared by eyewitnesses that a policeous muttering followed, mingled with scowling looks and clenched fists. Word was immediately carried indoors to Rev. Father Aust. He hurried out to the door and bundled the men who seemed most quarrelsome into the church. A few words of counsel to the others prevented further demonstra-

Trouble is in the air, and if it is to come the time will be to-morrow morning. This is clear from the words uttered to-night by Gen. Gobin, commander of the third brigade. The striking miners have made elaborate preparations for a demonstration atthe funeral of ten of the victims, which is fixed for half-past ten o'clock in the morning. The military authorities are determined that nothing of the kind. shall be permitted, and that from this time on there shall be no marching of any character whatsoever, whether during funerals or otherwise. This resolution is not generally known, and the miners are going on with their arrangements. Gen. Gobin talked over the telephone to Gov. Hastings for an hour or more this afternoon. He said he had merely made a formal report to the governorof the situation. It is apparent, however, that the commander is not. cheered by the immediate outlook. although he says he thinks there will be no further turbulence. He would.

Furthermore, he made a revelation. which put a startling aspect upon the situation. This was that the house of the engineer of No. 3 colliery had been broken into late last night by six masked men, and the engineer, who isa cripple, was unmercifully beaten. There is no clew to the identity of the assailants. The only work the man has been doing lately is the pumping necessary to free the mine from water. The general had also received a. formal report of the Audenreid outrage of last Thursday night, when the strikers broke into the house of Gomer Jones, superintendent of the Lehigh and Wilkesbarre Coal company. Jones, whose unpopularity with the miners. was one of the first causes of the strike, was not there, but the men literally wrecked the interior of the house and attacked a mine powder house near by and stole therefrom a quantity of dynamite. As soon as he heard of this, Gen. Goben assigned a guard of the Thirteenth regiment to remain at-
